## BOARDROOM & MULTI-PURPOSE SPACE

Prepared for: Laura Pothoven – Director of Operations  
Prepared by: Ken Greene & Matt Poles, Production World  
Proposal Date: May 28, 2021  
Location: Emmanuel Home - 13429 57 St, Edmonton, AB

May 28, 2021

To whom it may concern:

We have selected commercial grade products for reliability and performance that will fill the needs of this facility for years to come. All equipment is listed within the following pages. Specification sheets are available upon request.

Our design is based on our onsite meeting, and both Boardroom and Multi-purpose room proposals are stated as follows:

### **1. Boardroom A/V conference system:**

- One Q-Sys NV-32-H Network video endpoint & meeting room processor
- One Q-Sys TSC-80TW-G2-BK wall mounted touch screen controller
- One QSC SPA2-60 amplifier
- Four QSC AD-C6T AcousticDesign flush mount ceiling speakers (white)
- One Q-Sys PTZ-12X72 PTZ-IP professional-grade HD conferencing camera
- One Shure Microflex advance MXA710W 4ft ceiling array microphone (white), designed for high-quality audio capture in premium AV conferencing environments
- One Luxul 12 port/8 PoE+ gigabit managed switch
- One Furman M-8x2 power conditioner
- One Kramer Via Campus2 wireless presentation and collaboration system, integrated into the system
- One Kramer video DA
- One small AV rack with locking glass front door and two top mounted fans, to be located in boardroom.
- One NEC 5200 lumen laser HD projector, with ceiling mount
- One motorized screen with Low Voltage Control, integrated with controller –  
**Note:** surface ceiling mounted, and recessed ceiling mounted options provided
- Two LG commercial grade 65in displays, with articulating wall mounts

#### **Option 1 – Surface ceiling mounted motorized screen:**

Our price to supply and install this system will be **\$32,425.68 +GST**

- Includes labor, programming, misc. parts, cables, and training.
- Electrical and data cabling provided and installed by others.
  - A network input provided at the Rack location.
  - One available 15-amp circuit at the Rack
  - One shared 15-amp circuit for the TV's – with duplex at each TV location
  - One shared 15-amp circuit for the Projector and Screen – with duplex installed at projector and screen locations

#### **Option 2 – Recessed ceiling mounted motorized screen:**

Our price to supply and install this system will be **\$33,945.85 +GST**

- Includes labor, programming, misc. parts, cables and training.
- Electrical and data cabling provided and installed by others.
  - A network input provided at the Rack location.
  - One available 15-amp circuit at the Rack
  - One shared 15-amp circuit for the TV's – with duplex at each TV location
  - One shared 15-amp circuit for the Projector and Screen – with duplex installed at projector and screen locations

**Note:** This Boardroom design offers both a wireless presentation/collaboration system and a local wall mounted HDMI input **BUT** only allows for the same content to be shown on the Projector and two TV's. If you require independent routing of either video source, to any or all displays, we would change the processor and add video matrixing... this would add \$2,000.00 to either of the above options.

## **2. Multi-Purpose Room portable AV system:**

- Two Da-lite Deluxe Insta-Theater® portable projection screens; features a pop-up design and is ideal for traveling or business presentations with a light-weight aluminum case

- Two NEC 5200 lumen laser HD projector
- Two Da-Lite 42" PIXMate PL series carts
- One Kramer video DA, with required HDMI cables
- EV Evolve 50M portable loudspeaker system, features ElectroVoice's new QuickSmart Link digital audio and control technology, an onboard mixer, DSP and effects - all combined within this sleek format.

*For more info:* <https://products.electrovoice.com/na/en/evolve-50m/>

Our price to supply and train on this system will be **\$6,499.85 + GST**

### **Equipment Warranty**

Q-Sys & QSC ... 3yr	Shure ... 3yr	Kramer Via ... 3yr
LG commercial ... 3yr	Luxul ... 3yr	Furman ... 1yr
Da-Lite ... 1yr	NEC ... 3yr	EV ... 3yr

### **Installation Warranty**

Production World offers a two (2) year warranty on workmanship commencing on the completion date of the installation. This warranty will not cover malfunction due to operator error or abuse, nor does it extend to incidental or consequential damages. All equipment warranties are as per the manufacturer specifications. Repair of equipment by anyone other than Production World will void the warranty. Labor for Production World to pick up and reinstall defective equipment during the warranty period will be billed at regular labor rates.

Service for workmanship warranty claims shall be completed Monday to Friday 9:00 am to 5:00 pm only. If non-warranty service work is requested there is a minimum charge of two (2) hours.

## **Terms**

Fifty (50) percent down upon acceptance; fifty (50) percent due upon equipment delivery and substantial completion.

- Electrical and mill work to be provided by others.
- Production World will provide specifications for electrical required and coordinate with your electrician on the installation.
- Conduit/Raceway to be provided by others as deemed necessary.
- Permits, Taxes and Licenses not included.
- Once product has been delivered to the work site it becomes the sole property and responsibility of the client.
